The Dream Team

The Lubell Rosen Difference

For over 20 years, our team of trial lawyers has defended thousands of doctors in Florida against medical malpractice claims. Our firm's co-founder, Steven Lubell, has been recognized as a Florida Board Certified Trial Attorney ¹.

- We believe in flat fees; not hourly rates.
- We let doctors make decisions; not insurance companies.

¹ Less than 2% of all attorneys in Florida are Board Certified. This is the highest status conferred by the Florida Bar.

Going Bare

Doctors that Go Bare save thousands of dollars per year, but are responsible for paying their own legal fees if they get sued. If you have made the brave decision to drop your insurance and Go Bare, you are not alone. Join us and we will protect you.

Pre-Paid Legal Defense

Now in its 16th year, PPLD is a fraction of the cost of malpractice insurance. For an annual flat fee, Lubell Rosen will provide complete medical malpractice legal defense representation. PPLD includes:

- Defense expert witness and most litigation costs.
- Representation until the case is over with no cap on fees.
- All settlement decisions are made by the doctor.

Indemnity Only Medical Malpractice Insurance

IO Coverage is insurance representation that only pays for settlements and judgments. It does not pay defense attorney's fees. Consequently, IO Coverage is less than 50% the cost of full coverage. IO Coverage is offered by participating risk retention companies and accepted by most hospitals.
